

SAUCERS 1968

SPACE & SCIENCE

no. 52

□ EDITOR: GENE DUPLANTIER, 17 SHETLAND STREET, WILLOWDALE, ONTARIO, CANADA □

A sketch of the unidentified flying object as described by John Kryschuk of Beausejour. Mr. Kryschuk says that the object hovered over his truck when he stopped on the highway, then followed him some four miles to Beausejour before suddenly flying away "like a bolt of lightning." Seven other people at Brokenhead reported having seen strange flying objects the next evening.

"Some of the readers of your publication are laboring under the misconception that this office will furnish those who request it, a copy of the Airman magazine which features the article on UFOs.

We cannot and will not perform this service, since our only object in life is to serve the working press of the U.S. and Canada.

If your readers have further queries on this subject, I strongly urge that you encourage them to write to

the Chief of Information, U.S. Air Force, at the following address: Office of Information (SAFOI), Washington, D.C., 20330.

Thank you for your understanding and cooperation." (C.J. Matthiessen, Lt. Colonel, GS, USA, Chief, Public Information Division, Ent Air Force Base, Colorado 80912.)

"I just received and read SS&S No. 51 today. Your new format is fantastic! A lot of UFO magazines would give anything to be like that issue." (Paul Johnson, Collinsville, Conn.)

"Thanks for #50. I must congratulate you & co. involved in putting this gem together. I can see a devotion of 100%...and no Turner's Dandruff ads! UFO NEWS YOU CAN USE is fascinating - as are your articles. Have received various mags from England and U.S. etc., but none had your super interesting format." (P. Cuttle, Toronto, Ont.)

"That last issue (#51) was fantastic! The artwork was good, the printing was better and the columns were much better! Keep it up...this is the kind of magazine your readers have been waiting for! As a suggestion: have you thought of letting your readers become "members" of your magazine, similar to the way Saucer News has done?" (Thomas C. Swain, Greenlawn, N.Y.)

("Yes...we have thought of it but would need more time than we can devote at present. It's all we can do to get this zine out every three months!" - GD)

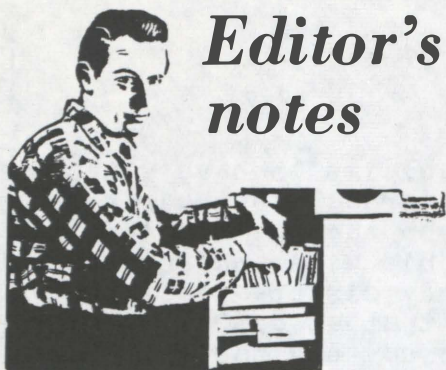

"Your latest magazine (No.51) was great. Keep up the good work." (J.W.Blake, Skookumchuk, B.C.)

"Upon receiving SS&S #51, I was more than pleased about the cover and admired it for some time before I even opened it to read it. I read and studied each article with fascination due to the nice arrangement, titles, photos, etc. All in all, a very pleasant issue; informative, well illustrated, cover excellent! You certainly did an excellent job on this with a lot of hard work which I know it takes. If readers only knew the painstaking amount of work that goes into each page layout to form an intelligent magazine by a one-man operation, they would rush out and beg for subscribers to make sure that it would never cease to exist; but these things are taken for granted in this day and age." (Armand A. Laprade, Worcester, Mass.)

("You are so right, Armand!" - GD)

"While we're on the subject of SS&S, and in total sincerity I must commend you highly for such an excellent and high calibre publication. One can easily determine that you and SS&S are doing a thorough, comprehensive and responsible job of reporting UFO activity in Canada. In my opinion your magazine should take its place as a most worthy and valued medium." (Robert Cummings, Niagara Falls, Ont.)

"There is no doubt in our mind that SS&S is to be the most highly recommended UFO publication in Canada. We hope that you will continue the excellent material you offer in each issue." (Brian C. Cannon, CAPRO, Winnipeg, Man.)

Editor's notes

Regular readers of this publication know that we had a real flap last year in Canada, especially in our western provinces. We had fully intended documenting every sighting but looking at our many reports decided to keep them in our files for reference only. There were just too many and would have taken up an entire issue even though briefly described. We will continue with recent reports this time, again using only the more unusual stories.

We're living in a new age. The visual age. The age of graphics. Today nearly everything is oriented towards sight. And sound. Although we aren't enclosing phonograph records with SS&S, we are trying to give you a better visual approach to supplement the reading material on every page. We feel you will grasp the situation even faster if you have an artist's interpretation to accompany the stories. From now on, as much as will be possible to illustrate events for you will be a feature we hope you'll enjoy. The sketches and photos will not be extra large if a suitable smaller one will suffice. After all, the printed word is a necessary prerequisite to ensure all details are included. We are delighted to see that at least three U.S. ufozines are starting the trend to illustrated, offset publications.

We'd like to mention to our readers who send us mail that due to the amount of material received from them and other sources, it is not always possible to answer immediately. So don't despair, we do our best to reply to every letter that needs an answer, even if it takes a month or more to get around to it. If we answered everything right away we'd never get any work done on our publication plus the other requests we get for artwork, articles, etc.

We received a letter the other day that may interest some of you with similar ideas. Mrs. Marian Nigl asked us "Why not give SS&S a new catchy name... like "The Last Frontier", then an auxiliary heading re the flying saucers. Mrs. Nigl suggests it would appeal to a better class, students, etc. Our answer to this is that I've always felt when an editor changes the name of his magazine (as some have TOO often), he loses the identity his readers have built up between him and his magazine. The meaning of the name itself isn't of primary importance, but who is behind it and what it stands for.

I'd also like to take a little space to thank those anonymous donors of "The Flying Saucer Reader", "Flying Saucers Where Do They Come From" and "UFO - HO HO!". They are welcome additions to our library.

In SS&S #49 we reported the Shag Harbor, N.S., incident. Do you know what unofficial sources say the object was? They say it was a "stray" missile fired from Vandenburg AFB in California. This is only 3,000 miles away! We hope everyone in the line of fire will raise hell with the gov't authorities, even though this explanation is utterly ridiculous!

COVER STORY: "REPORT FROM CANADA" is a new column starting in the Fall issue of Saucer News and written by your editor. It will contain unusual reports from this country. SN's address is on page 19 of this issue.

The sketch and story of the UFO was printed in the April 9th edition of THE BEAVER, a Manitoban newspaper. The event occurred on April 3rd of this year on P.T.H. 12 near Beausejour. It took place around 11:30 p.m. and the UFO was about 400 feet above the highway and directly above the witness. It gave off a very strange loud humming noise. Seven bands of different colored lights were spinning around the object as though they were on belts. Mr. Kryschuk watched it for 10 minutes, got into his truck & the UFO followed him the remaining 4 miles where it went into the southwest like a lightning bolt.

CANADIAN REPORTS

3-PLATE-SHAPED UFOs SIGHTED - A Cavan Township family claims to have watched three yellow objects in a V-formation speeding eastward above their home. It happened on March 17 at 4:50 p.m. Dan Mills, 55, who says he studied the objects through a powerful pair of binoculars, as did his wife and son, estimated the speed at 450 mph and about a mile high. They disappeared from view after 30 seconds or so. He and Mrs. Mills said that at 8:30 the same day a radio station reported a woman had telephoned to say she had seen similar objects some miles east of the Mills home. Mr. Mills claimed he had been sighting UFOs since the mid-1930s, and always in the Cavan Twp. area.

UFO BEEPS ON RECORD - A tape recording of UFO beeping was made by Mrs. G.C. Marshall of Midnapore, Alberta. The noise is a strange regular beeping and is a new feature added to the rash of UFO sightings in the Calgary area. The tape is one of many which have been made. Earlier this year the first visual sighting coinciding with the sound was made in the Bragg Creek area. At least eight witnesses were present near the home of Harold Norton near Bragg Creek when the UFO was sighted. Russell Hill, the High River forestry tower lookout who has reported UFOs a number of times, claims he has heard the beeping noise on his radio on different occasions. He says other forest rangers have had a similar experience. (Calgary Albertan, April 1, 1968)

OVAL-SHAPED, GREEN UFO MAKES LANDING - G. Lovatt of North Bay, Ont., and a second person were sitting in a car on Hwy. 63 when they saw the object, about 75 feet in diameter appear to land in the bush near Balsam Creek. It was at a 30-degree angle with the highway. The object seemed to pulsate at five-second intervals and was about a quarter mile away from them. They saw the object for more than 10 seconds. It was moving smoothly and much lower than a meteor. The sighting was made at 3:25 a.m. A NORAD Region spokesman at North Bay said that radar scopes at the SAGE complex failed to record any irregular activities in the sky over the area. A member of the Nugget staff was awakened by the roaring passage of the object overhead. He said the roar was accompanied by a flare of light pulsating from green to white that illuminated the interior of his home. (The North Bay Nugget, April 8, 1968)

The Stratford Beacon-Herald received this photo in the mail on March 26 from a person that did not include his name because "people would laugh at him if it was mentioned". The writer said he saw something in Queen's Park made of metal that flew by very quickly and was 20 to 30 feet across. The object was seen by the writer and two friends with him at the time. He explained he had been in the park to take pictures of the Stratford Festival building so he snapped this and another picture of the object. He closed the letter by saying "Up until this time I did not believe in flying saucers."

(Source: The Stratford Beacon-Herald, Ontario, March 27, 1968.)

NELSON FAMILY SEES FOUR UFOs

The above photo is a photographer's interpretation of UFOs based on descriptions of Nelson residents as the objects flew above Elephant Mtn. The sighting took place on Friday, Jan. 5, 1968.

The four UFOs hovered above the CBC tower. They were seen by Mrs. Marilyn Horser and five other people. She said she gazed in disbelief as the UFOs soundlessly zig-zagged over the dawn sky. The witnesses peered at the objects through binoculars for nearly an hour.

"The UFO I saw through the binoculars was round on top, flat at the bottom with a green glow," said Mrs. Horser. Her husband said the one he was looking at looked as if it had flames coming out of the top of it and cascading over the side.

But strange things were happening on the ground too. Big white towers of cloud appeared by the CBC tower. They hadn't been there when they first saw the UFOs. One cloud went straight up in the sky just like a ruler with a round blob on the top. It was quite white but after ten minutes the cloud just

disappeared. Mrs. Horser said the colors of the UFOs had been predominantly red and green..."but just faint."
(Nelson Daily News, Jan. 6, 1968)

RECTANGULAR UFO SEEN BY FARMER

Ronald Hale who farms about seven miles southeast of Gilbert Plains, Man., said while he and his family were driving to town at 6:55 p.m., March 2nd, they saw the mysterious object. He immediately stopped his car to better observe a huge rectangular object several hundred feet above the ground a few miles west of where the car was parked.

Mr. Hale described the flying object as "much bigger than a DC 8" and about three stories high with no windows observable. It was emitting black smoke. By this time, two other cars had parked nearby to watch. All motorists shut off their motors to hear if the object was making any noise but could hear none.

After manoeuvring about a bit, the object took off at a 45-degree angle, about the speed of a jet. One car trailed the object and noticed it had a tail and was emitting a red streak. Mr. Hale said some friends of his going from Brandon to Gilbert Plains on Hwy. 10 spotted the flying object at Moon Lake, about 30 miles south of Dauphin. (Winnipeg Free Press, Man., Mar. 5, 1968)

FLEET OF UFOs SPOTTED OVER HOSPITAL

Around 9:45 p.m. a small fleet of "some-things" appeared in the sky just south of Milton District Hospital on Sunday, March 3, 1968.

Mr. and Mrs. Harvey Pettigrew were travelling along No. 10 sideroad near Hwy. 25 when Mrs. Pettigrew observed two off-white lights behind the hospital. They were of similar height and stationary. As they pulled to the side of the road to watch, a third light approached the two briefly from the east.

It hovered for only a moment before the original two disappeared out of sight in a southerly direction. The third went back towards the east. (The Champion, Milton, Ont. Mar. 6, 1968)

KITCHENER MAN PHOTOGRAPHS UFOs

An unidentified man photographed 6 times lights in a peculiar formation high over his house about Mar. 2nd. The UFOs moved in all four directions for about 30 minutes before disappearing from sight.

UFO KIDNAPPING AVERTED

This incident happened in Thompson, Manitoba, between June 15-30th of 1967. It occurred at 6:00 p.m. and was seen for only three or four minutes by Mr. and Mrs. D.F. LeMarquands, three of their children, four neighbors and two other children.

Mrs. LeMarquands had just entered the house when she heard a beeping noise at about one second intervals. Looking out the window, she saw dirt and debris moving rapidly around the house in a circular pattern. Upon going outside, she saw her husband who had just driven into the yard. He and the five children were staring up into the sky.

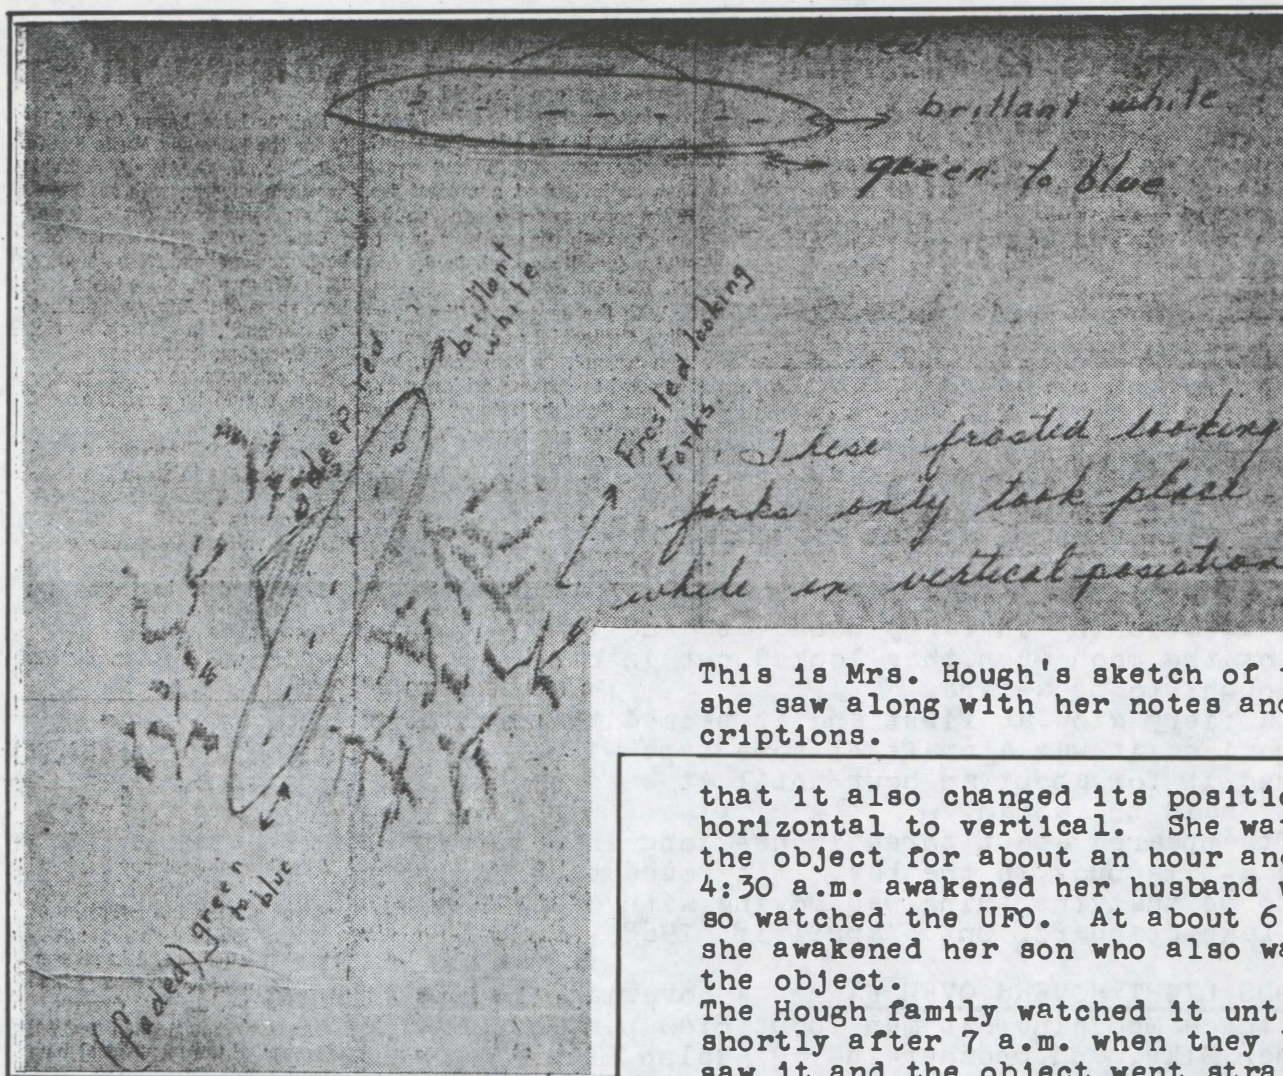

At first only dust and dirt, moving in a vortex could be seen, but then Mrs. LeMarquands was able to see the object causing the disturbance. She described the object as being large and shaped much like a pack of cigarettes although she later commented that it might have been cube-shaped. It was revolving counter-clockwise and appeared to have alternating shiny aluminum and then black sides as it moved. It had no apparent openings or lights, and it was now dead silent.

As she watched the object, Mrs. LeMarquands was distracted by a scuffling sound and she looked to the ground to see a 13-year-old boy from across the street pinning down her 8-year-old daughter. At this time the object started moving off at a 45-degree angle, levelled off, hovered, and then left on a level course towards the southeast.

Mrs. LeMarquands attention was then drawn toward the children, all of whom were visibly shaken, except her 8-year-old daughter. The whirlwind had stopped and the little girl was now standing by herself. The other children were eventually sufficiently calm in order to say that their 8-year-old playmate had risen into the air towards the slowly revolving object. The 13-year-old boy had grabbed her when she was about three feet off the ground. The children reported that the little girl's skirt, blouse, and hair had ridden straight up her body when she was rising. When asked if she could remember anything, the girl replied that she could remember nothing from the instant the wind started until she stood up.

Mrs. LeMarquands further reported that all the debris that had been blown up had been dropped in a yard across the street as the object moved off. She also stated that the "wind" had revolved around their home only, without touching neither of the neighboring homes nor the grass outside the "circle". "It was almost as though a huge glass container had been placed over them, the area involved was so exact," Mrs. LeMarquand reported. (Credit: CAPRO, P.O. Box 1316, Winnipeg 1, Man. Credit: L.Chickoski, E.Barker)

HOVERING LIGHT DISTURBS DOGS - Joseph Thomas, Jr. of Grand Marais area reports the sighting of a UFO about 4:30 a.m. on April 5th. He was awakened by dogs barking and upon checking outside the Thomas home, saw a bright orange light hovering in the northeastern sky. Shortly afterwards a brilliant white light came from one side of the craft and it moved south. On the fading of the white light and the reappearance of the orange light the UFO appeared to be hovering. It moved once more after 15-20 minutes and stopped further south. At about 5.00 a.m. Mr. Thomas stopped his observations and upon returning to the house noted considerable interference on his transistor radio until 5:40 a.m. (Beausejour Beaver, Man. April 16, 1968)

This is Mrs. Hough's sketch of the UFO she saw along with her notes and descriptions.

RED-DOMED UFO SEEN BY FAMILY

"It was saucer-shaped with a deep red dome. Underneath it was a brilliant white, and the lower rim changed from green to blue". This was the eye-witness description of a UFO sighting made at Parson, B.C., on December 30, 1967.

A housewife and mother who, with her husband and 12-year-old son, watched the antics of a UFO for more than four hours. Mrs. Mary Hough said she had been unable to sleep and about 3 a.m. she sat at the front room window and watched the stars. At that time she saw a very bright star which disappeared sometime later. At about 3:30 a.m., another bright star appeared. She lined it up with a fir tree in the yard and realized it was moving in the pattern of a staircase. Mrs. Hough got her 8x30 binoculars and gave the above description except

that it also changed its position from horizontal to vertical. She watched the object for about an hour and about 4:30 a.m. awakened her husband who also watched the UFO. At about 6 a.m., she awakened her son who also watched the object.

The Hough family watched it until shortly after 7 a.m. when they last saw it and the object went straight up. (Nelson Daily News, Jan. 13, 1968)

UFO OBSERVED NEAR POWER POLE

Mrs. Laurence Meggs, of Bengough, Sask., saw the UFO on Feb. 19 and it stayed visible for about 20 minutes (11:40 to 12:10). She first heard a loud, shrill sound and then saw the object moving over a power pole about 1 foot above it. The object made several turns over the yard and at one point dropped straight down to within three feet of the ground. It was several feet (about 7) wide and about 5 feet in height. She said it was aluminum in color and appeared to have milky tinted windows. The noise was so loud the cattle stayed in the barn until the object disappeared and the dog on the farm was also disturbed by the shrill sound.

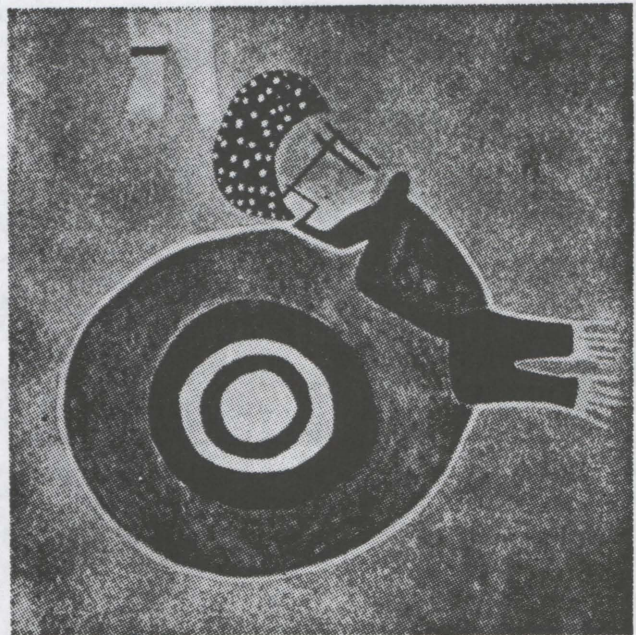

THIS UFO IS DIFFERENT! - Fred Passmore was out pruning fruit trees on his small farm two miles west of Dundas, Ont., when he saw a UFO. It was orange in the center and black toward the edges. It was the shape of a box kite but "it wasn't as square as you would expect a box kite to be." It fits no description of any known aircraft he has ever seen or heard about. His qualifications as an observer are impressive, serving with the RCAF and 12 years in the RCAF counter-intelligence. "...it was nothing that exists, as far as I know, in our arsenal," he said. He had special occasion to look up at the sky that day of April 7 as his two sons were on a flight as part of their air cadet training. The object appeared to be beneath the plane. "At first it looked as though it was hanging beneath the plane," Passmore said. The UFO was about 60-degrees from the horizon and continued in a westerly direction and took about 3 or 4 seconds to pass from view completely. The object was at about 20,000 feet but left no condensation trail. The sky was clear, sun shining and viewing conditions were excellent. The object was five or six-sided, with two sides quite long, giving it an almost coffin shape, with a point at the head. (Hamilton Spectator, April 8, 1968)

FLYING SAUCER LANDS ON GEORGIAN BAY - An Espanola, Ont., woman and her family were vacationing in Parry Sound at a cottage and had been watching the eclipse of the moon when they looked out into the bay and noticed what they first thought to be a fire.

"It was a fiery glow at first and it seemed to be moving. It came closer and we noticed it was a craft of some type with red, yellow and green lights. We watched it for about an hour until it sped across the channel and up into the sky," said the woman.

The craft appeared about three inches long in perspective and remained outside the 5-mile buoy in the bay. "It moved back and forth very quickly. It seemed to us that the thing was moving with a circular motion," she added. (Elliot Lake Standard, Ont., April 18, 1968)

MYSTERIOUS LIGHT HOVERS OVER FARM - A hovering light attracted the attention of three Medicine Hat men about 8:40 p.m. on April 18th. Nick Didack, his father Mike, and brother-in-law Adolph Leis saw the strange phenomenon high above a farm near Pashley from the Deering farm located seven miles south of Pashley. Mr. Didack said the three heard a loud, eerie sound somewhat similar to the noise made by a jet and, scanning the sky, observed a brilliant white light overhead. The light at times was so intense it appeared to illuminate the whole sky and noted the source of light seemed to be revolving as intensity waxed and waned. The light remained stationary for about four minutes before drifting off to the north and later toward the east. The object was visible to the men for about ten minutes. (Medicine Hat News, Alta., April 19, 1968)

A painted rock surface in the Sahara shows a number of flying men and objects including this figure.

ARE YOU CONTEMPLATING MOVING? Please send us your new address as soon as possible so that we may keep our files up to date, and you will get your SS&S that much sooner by not having it returned to us as undeliverable.

We are grateful for any UFO items that appear in your local paper.

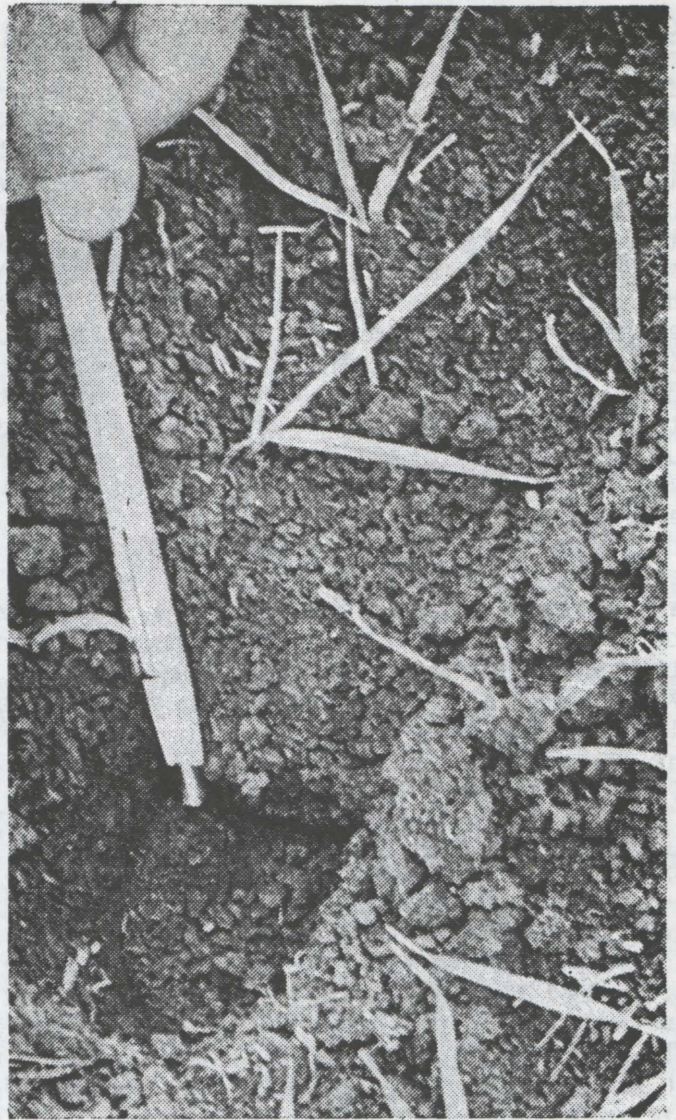

MYSTERY AT CHARLESWOOD

On Sunday night, Oct. 22 and Monday a.m. Oct. 23, the RCAF, RCMP and others were trying to determine what more than 17 persons reported over the Westdale area at that time. The UFO was first sighted at about 6:45 p.m. A Westdale woman saw it hovering over a house across the street. Another Westdale homeowner and his wife saw the lights which were now a red color. They moved at great speed and changed shape and seemed to form a figure 7.

Two streets over, a salesman and a saleswoman were readying to close up their office in a new subdivision of several hundred new houses, some with only the basements dug out so far. Across from five show homes is a vacant ploughed field. To the west of one of the houses is a triangular field separated from the houses by a street and a drainage ditch. This was the field where their sighting took place.

The salesman was returning from one of the houses when he noticed directly ahead in the field about two hundred and fifty yards away, two small purplish-red lights tilted at an angle of 45 degrees. The distance between them was about 150 feet. The first light was stationary and appeared to be suspended in the air about the height of a telephone pole above the field. The light on the right seemed to be stationary on or slightly above the ground. The man walked closer and then saw a third light, a little brighter that appeared on the surface of the field between the first two. There was no sound. The saleslady joined him on the front lawn. The lights then blossomed to a diameter of 2 or 3 feet and began to pulsate, brighten and dim at 2 or 3 second intervals, but not in sequence with each other. The lights started moving again, at times converging on the couple and then retreating to their original positions in the air. The salesman remembered he had binoculars in the car and went to get them when a car approached. He flagged them down and two men, two women and two small girls got out of the car and stood watching the pulsating lights. Just then, a fifth light dropped down through the clouds. It hung under the clouds, straight above them, casting a rosy glow on the clouds above it. The other lights started to drift about 100 feet northward. Just then airplanes were heard over Charleswood. One plane passed overhead. Finally, the lights changed places into a geometrically perfect triangle being led by the first light, dipping and bobbing over the highway. They reached a hydro line, broke off formation into a single line, the wires lighting up as they sped over them. Later they hovered over a TV broadcasting tower and then took off into the northwest.

The next morning the salesman and a foreman went looking for evidence in the field. A small pile of stones in a circular heap and surrounded by many

A Woman's Narrow Print?

RCMP OFFICERS WANT UFO DETAILS AT 3 A.M. - It started with a Burnaby, B.C. woman seeing a UFO hovering over the municipality in the first week of April of this year. It ended with the members of the family being rousted out of bed at 3 a.m. When she protested to the RCMP officers about the inconvenience, one of the constables told her they were merely following "orders from Ottawa." Mrs. Aileen McPherson was walking her dog around 11:30 p.m. when she saw a "bright pink light" in the sky. It was hovering over the houses at a low altitude," she said. "I noticed that the light appeared to be pulsating. As I watched, the UFO started to get larger, still pulsating, as though it was coming towards me. I went toward the house, calling for my daughter to come out and look. As I did so, the object stopped, hovered and finally vanished behind some trees."

When her daughter appeared, the object reappeared, still pulsating and it started to climb swiftly on an erratic course. It went behind some trees but was still visible. The two women called the Burnaby RCMP. "The officer said they would contact them later. Mrs. McPherson locked the house and went to bed.

At 3 a.m. Mrs. McPherson was awakened by the phone. It was the RCMP telling her they were sending two men over to take their statements. A third statement came from Dan Goodbout, a young man who was staying with them. Asked about the incident, a spokesman for the Burnaby RCMP said that he had no explanation for the "unusual procedure" unless the matter was of extreme urgency. "But there was no urgency in this case and I cannot offer an explanation," he said.

The radar control center at Vancouver Airport reported "nothing unusual". (The Columbian, New Westminster, B.C. Excerpts from Alan Jay's column.)

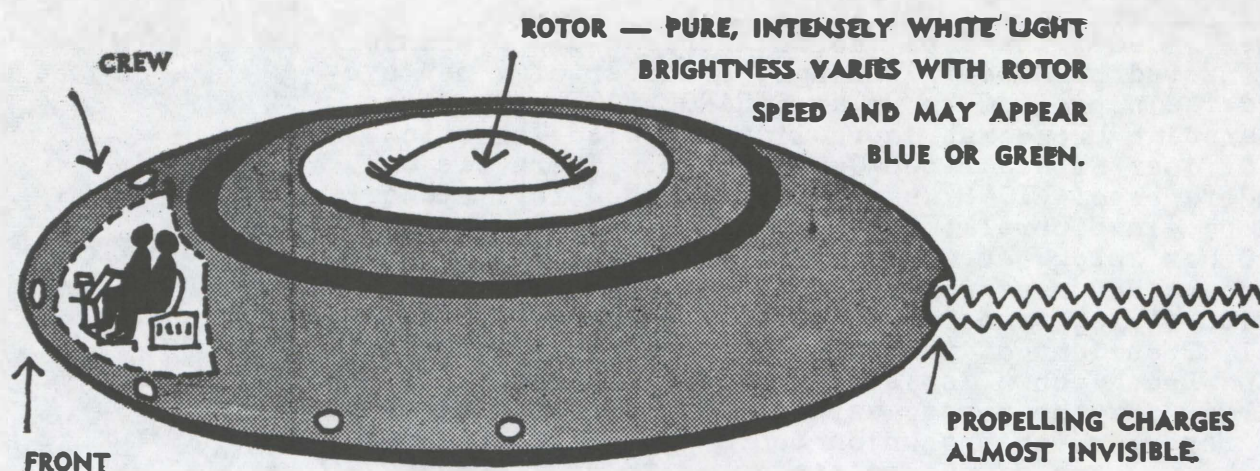

CHARLESWOOD MYSTERY - Con't.

small footprints leading to and from the pile of stones. A few yards away were 3 areas about 30 to 40 feet apart where the footprints were concentrated in a circle of about 2 yards. It was as though they were all crowding to get into or onto a ladder of their flying machines. From the three trampled areas, sets of footprints in straight lines radiated out for a distance of 60 or 70 yards always in pairs. At least 8 creatures were involved. The prints were about 7 inches long and about 2 $\frac{3}{4}$ " wide but the oddest thing was that they all walked the same. The heels pressed deeper than the toes. It appeared that no ankle movement was present. Where the soil was wetter, the prints came to a point at the toes. The heels left a rounded depression with a cuban heel impression. The foreman experienced a sudden headache when he first bent over the pile of stones. The estimated weight of the creatures would be about 40 to 50 pounds each.

Before the salesman went to sleep that night his face and hands became hot as if by windburn or sunburn. The next day his legs ached and in the evening his car took a long time to start and remained that way for 3 weeks, the condition eventually disappearing. A hot feeling came into his thigh for about a month, turning into a cool feeling in January. He purchased a compass to check for magnetism and found that everything in the UFO location was highly magnetized, especially the steel flag pole of the show home. His car also was magnetized. The curious thing was that everything was magnetized on the side facing the 5 objects. He found that his non-magnetic watch and a nail file were also affected.

On Dec. 10 the man looked at his tongue in the mirror and was horrified to see it a yellow-greenish color. He dashed to the doctor for tests. The blood showed a significant drop in white blood cell count. Both he and the saleslady were very dry after the sighting. He lost his sense of taste or so it seemed. Everything he ate tasted the same and there was a taste of copper or metal in his mouth. The doctor said the tongue coating was caused by dehydration.

The RCAF tried to say the objects seen were 4 Otter aircraft but this is not logical because the planes would have been over Charleswood and out of sight within minutes. (Sources: Winnipeg Free Press, Oct. 24/67 and CAPRO, Winnipeg)

This diagram of a flying saucer given to the Calgary Albertan newspaper, was made by Albert Small who claims the craft are the products of the United States Gov't. Driven by "ion-propulsion", the 60-foot-long flying machines are manned by two or three crew members, Mr. Small claims.

TWIN UFOs CIRCLE SKY NEAR HOME - At approximately 11:45 Sunday night, April 28th, 2 UFOs circled the sky southwest of the home of Mr. and Mrs. Reinhard Seil in the Beaver Flat district of Saskatchewan. The glowing objects moving at high speed, circled in the area for some time before one headed north and disappeared in the distance. The second object also headed north but remained in sight and began circling again. It stopped, hovering "for some time", before moving off into the north out of sight. Mrs. Seil said both UFOs appeared about the size of a pingpong ball when she first saw them. One of the objects "turned orange once" she said. (Source: Swift Current Sun, Sask., April 30, 1968)

CNR NIGHT OPERATOR SEES UFO - At 1:40 a.m. on April 17, Roy Cardwell, night operator at the CNR at Davidson, Sask., saw an object to the southeast which was very large and a red color. As it came closer it appeared to turn from the round shape to an oval and turned a blueish color. It finally changed to a tangerine color and when last seen was a gold color with an iridescent glow. Chief of Police E.H. Gray who also viewed the object, stated the moon was seen in the sky at the same time. (Source: Davidson Leader, Sask., May 1, 1968)

BUZZING NOISE ACCOMPANIES HOUSE-SIZED UFO - A lady at Ste. Anne, Manitoba reports seeing a UFO the size of a house about the middle of April. She said she was awakened at night by a strange buzzing noise and looking out of the window saw an object covered with lights. She was unable to see it clearly because the bright lights obscured its shape and the night was fairly dark. The UFO rose into the air and disappeared shortly after she saw it some hundred yards from her house in an open pasture-like area.

A young lady near Blumenort also reports being awakened by something unusual at night. She said she woke up around 2:30 a.m. on April 13th when a strange light illuminated her room. There was no noise. Mystified, she went outside but was unable to see anything that could have made the light. Sightings identical to the latter one reported have occurred several times in the Grand Beach area in the last few months. In most cases, persons being awakened by such lights then saw a strange object or light moving around in the sky nearby. Presently there are up to three sightings a week in the Beausejour-Grand Beach area. (Source: Steinbach-Carillon News, May 2, 1968)

UFO CONFERENCE HELD AT CHIPPAWA, ONT. -

On June 7, 1968, the first North American UFO Symposium was sponsored by Robert Cummings, producer of a new syndicated radio program known as STRANGE FATE. Cummings is a Canadian broadcast journalist and also Communications Officer of NICAP Sub-Committee #3. There was a preponderance of NICAP associates from New York state headed by Jim Sipprell, their up-state N.Y. Co-ordinator. Other delegates who spoke were Brad Steiger, noted independent UFO researcher and author of books which deal with flying saucers and other phenomena. Bill Weitzel, President of the UFO Institute of Pittsburgh, Pa., and Lee Katchen assisted in answering questions put forward by the press, especially those of Bill Nelson, a reporter for the Union Sun & Journal of Lockport, N.Y., who was the most inquisitive of those attending.

ROBERT CUMMINGS

BRAD STEIGER

Lee Katchen, an atmospheric physicist at NASA, talked about reports by the USAF for the year's 1951-53; a description of pulsars and their relation to UFOs, if any. He feels that UFOs may be extraterrestrial probes from evidence he has examined so far.

Weitzel's group intends to set up instruments in the Pittsburgh area to monitor flights of UFOs as their final goal.

It was learned that 13 reports issued by Project Grudge and Bluebook during the 1951-53 period totalling 200 pages are planned for publication as a 1-volume supplement to THE UFO EVIDENCE.

Brad Steiger informed the group of Men-In-Black activity and a contactee case which he has under investigation.

Rod Tennyson from the Institute for Aerospace Studies, University of Toronto, said that seven scientists were involved in their investigation of UAPs (unidentified aerospace phenomena) but it was too early to make any statements as to their findings for general release.

Al Vezina obtained a 16mm film of the CBC's program "Through the Eyes of Tomorrow" which spotlighted UFOs and this was shown to the entire group, including your editor, most of whom had not seen it at the time it was aired on TV.

An informal group gathered together after the open discussions ended for the press and expressed their opinions that the whole affair was a success! Everyone is looking forward to the 2nd conference to be held in 1969.

Mr. Cummings felt, as did the rest of the gathering that this symposium was a good beginning to bring about better communications pertaining to UFO phenomena between those conscientiously researching this area and the press reporting on it. He feels the press should treat this subject with some respect.

NEW PUBLICATIONS CONCERNING UFOs

THE LUMINATOR. Elaine Chambers, editor. Based on UFO news from many sources. P.O. Box 1804, Santa Fe, New Mexico 87501.

COSMIC NEWSLETTER (soon to be released). Based on Adamski's philosophy &

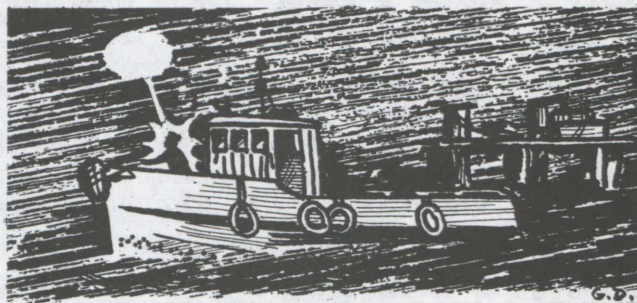

other UFO subjects. Donation of \$2.50 per year. Write: Charlotte Blob, c/o Thomas H. Heiman, Apt. 304, 5550 North Morgan St., Alexandria, Va. 22312.

PHENOMENA - Monthly, \$4.00 per year. Ormond Turner, editor, P.O. Box 3303, Vancouver, B.C., Canada. Covers UFOs, contacts & strange occurrences.

UFOs INVADE MARITIMES

The UFOs seem to be concentrating their flights over our Maritime provinces this spring & summer. Four people at a drive-in theatre near Charlottetown watched a bright object high overhead for nearly an hour and a half before it sped from view. It appeared about 8:30 p.m. and moved at varying speeds until nearly 10 o'clock. Then it abruptly changed course and disappeared rapidly. Vapor trails were seen in the area where the object had been manoeuvring. Charlottetown airport received no reports of such an object. Date: May 8th.

A Mr. Perry and his girlfriend arrived home after being to the North River Drive-In around 12:30 a.m. As they pulled into the yard in West Royalty, they looked up and saw a red and white light going across the sky, then it stopped for up to three-quarters of an hour, and then headed north. "The lights dimmed and it took off like a shot leaving a white trail in the sky," Perry said. After watching the object for a while, he drove his companion home to Clyde River and the girl and her mother then viewed it. The man said he watched it move off when he returned home.

About 9:30 on the evening of March 11th, Mr. and Mrs. Steven Trimper were near the old Municipal Home in Marshalltown en-route to Digby when they sighted an oval-shaped object about the size of a helicopter and had red, blue & white lights. The object seemed to hover above the water around the area of the Bay End Motel as they viewed it along with Mrs. Claude O'Neill for a few minutes and then descended and vanished out of sight. About two months ago similar reports came from the Culloden area, it is understood.

On May 14th, 20 teen-agers attending a movie at the North River Drive-In reported watching a glowing multi-colored object in the northwestern sky for about 20 minutes. The UFO gyrated, changed color from red to green to shiny silver. It disappeared from view several times leaving a haze in the area where it was last seen.

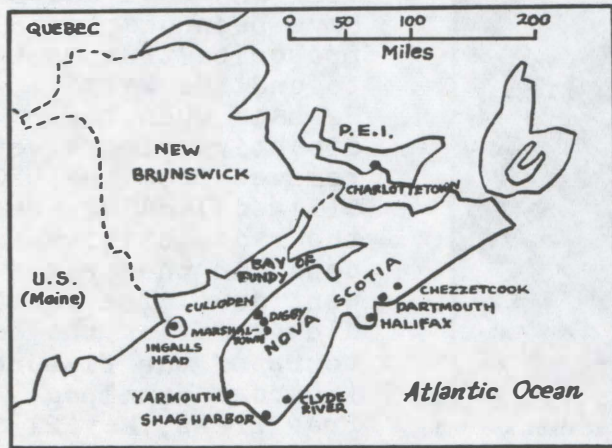

A large light with red, green and yellow lights captivated the attention of Mrs. L.O. Gaetz of Chezzetcook. It was stationary for hours, then made its way seaward. Other weird lights were seen at East Chezzetcook, Westphal, Halifax and Dartmouth around the same time.

To the southwest, bright mysterious objects in the night sky have been seen at Overton near Yarmouth, and across the Bay of Fundy at Ingalls Head on New Brunswick's Grand Manan Island. A middle-aged couple reported seeing a foot-

ball-shaped object glowing brightly with eight lights in the Overton area and a housewife in the same area saw a glowing light above the trees.

Across the bay at Ingalls Head, Marguerite Green saw four amber-colored lights about tree-top height. A mother and son watched a UFO fly over their Yarmouth home on April 28th, then disappear in a vertical exit.

A herd of cows in a farming area near Yarmouth led to a strange report. Chasing several strays, a farmer and his neighbor were suddenly confronted with a bright, stationary object about 1,000

UFOs INVADE MARITIMES - Continued

feet from the ground. They later described the glow "like a floodlight" coming straight down from the strange craft. Four other men also watched as the object moved away and the light disappeared.

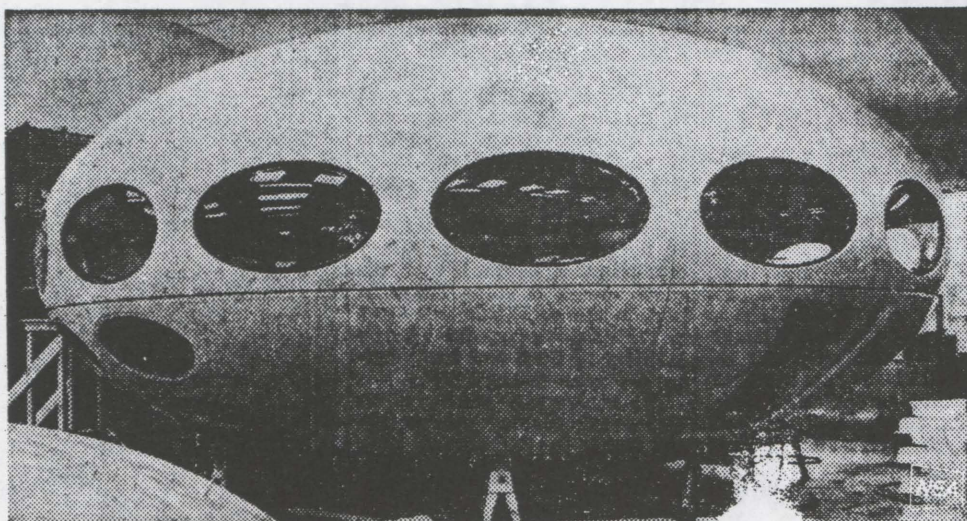

Another report comes from Capt. Woodrow Atwood and the crew of the fishing vessel "Which Way In", from Clark's Harbour. The captain reported seeing a light to the north of the boat about the size of a match light. Suddenly it burst into a blood-red light and appeared to be about 50-75 yards away from the boat. As he watched from the window, it became so hot he had to move away. The light hovered over the boat and then it appeared to move atop the water towards Brown's Bank. Crew members of the "Racer" reported seeing a red ball of light around the same time.

Residents of Head Chezzetcook and Westphal also reported seeing objects which changed course each time in a very distinct manner, travel straight up and down and back and forth in fairly short spurts. A Carleton man has found what he believes to be a meteorite and still has it in his possession. (Sources: Moncton Times; The Vanguard; Charlottetown Patriot; Halifax Chronicle Herald; Digby Courier.)

TWO UFOs CREATE STATIC ON RADIO - Sometime in the latter part of April, a minister and his wife saw 2 UFOs over the Turner Valley. The minister said that the radio in their home suddenly developed a lot of static, then a strange green light was shed over their TV set. It was coming from outside, so he went outside to look. There, about a mile above the town, were two objects between 40 to 50 feet in diameter and 10 to 15 feet deep. They were stationary for awhile and then suddenly one shot north and the other sped off in a southerly direction. (The Linda Curtis column, Calgary Albertan, May 28)

MICHALAK MAKES NEW FIND - Steven Michalak, the Winnipeg man who maintains he encountered UFOs near Falcon Lake, Man., in May 1967, uncovered several "S" shaped pieces of radioactive metal from the landing site. They are all 4½" long. They were dug out from a fissure in a rock. His experience as a prospector told him the metal might be "some kind of precious metal, like platinum, silver, or gold and silver together." Canadian Forces expressed interest in analyzing the pieces. Michalak was going to contact the University of Manitoba for analysis. The burn marks he said he received from the UFO have been recurring and that doctors have been unable to prescribe treatment to end the malady. He said when the radioactive pieces were removed from the UFOs alleged landing area, the radioactivity count in the area went down. The metal didn't follow the contours of the fissure. (Source: Winnipeg Free Press, May 21/68)

FLYING SAUCER reports will be rampant when this object is spotted. Actually, it's a summer house being built in Finland. The egg-shaped dwelling has 16 segments made of plastic and fiberglass. Door fits in opening at right and will swing downward.

Our Space Age

By OTTO BINDER

is a syndicated daily newspaper feature and there are indications that it will soon be re-produced in single sheet form of 6 pictures each, also in bound form and a probable YEARBOOK to be printed annually so that a continuing "library" will be possible for UFO devotees. It will be printed by Palmer Publications. Below are panels from the forthcoming series. Watch for more details in SS&S as to publication date!

A LOOK AT BOOKS

UFOs are nothing but plasma (electrified gas). **WHO FLYS THE SAUCERS?** by Riley H. Crabb, director of The Borderland Sciences Research Foundation, P.O. Box 548, Vista, Calif. 92083 discusses the guide lines for space contact; the differences between the jelly-bag and tin-can robots from outer space; how to distinguish a Viknor from Venus and an invader from Draco; the differences between the Good Guys/Bad Guys from space; the crashed saucer in Mexico's Sierra Madre; Visitors from other solar systems; the 3 men in black. 46 pages \$1.50 Other books by BSRA of interest are: **THE ETHERSHIP (UFO) MYSTERY & ITS SOLUTION** by Meade Layne, 40 pages, mimeo, illustrated, \$1.25. **COMING OF THE GUARDIANS** by Meade Layne, 90 pages, mimeo and illustrated, \$3.00. **INVISIBLE REALITY BEHIND APPEARANCES** by R.H. Crabb, 95 pages, mimeo, \$2.50. **THE DISCOVERY OF THE GRAPHIC MESSAGE OF GOODHUE** by K. Larson, 5630 Sawtelle Blvd., Los Angeles, Calif., 90230. **THE BIBLE & FLYING SAUCERS** by Barry Downing, \$3.95 (Lippincott Pub.) **REPORT OF THE UFO WAVE** - Ted Bloecher, 200 pages, \$5.00. **THE FACTS ON THE FLYING SAUCER CONTROVERSY** (formerly **UFOs For The Millions**) by Howard V. Chambers. (Grosset & Dunlap) - N.Y., \$1.00. Dr. Robert Dickhoff has published some unusual books: **BEHOLD THE VENUS GARUDA**, \$5.00; **HOMECOMING OF THE MARTIANS**, \$5.00; and **AGHARTA, SAUCERS OF PREHISTORY**, \$4.00. Order from him at 600 W. 157th St. New York, N.Y. 10032. **UFOs OVER THE AMERICAS** is Jim and Coral Lorenzen's latest one, published by Signet Non-Fiction, paperback #T3513. Price .75¢. **UFO-HO HO!**, is a book of saucer cartoons by Joseph Farris, Popular Library Paperback, #60-2285, 60¢. Saucerian Publications will soon release **SONG OF SATURN** by Connie Menger, \$3.95 and **BOOK OF SPACE BROTHERS** by Tim Beckley, also \$3.95. Another book in the planning stages is **THE WOODROW DERENBERGER STORY** by Saucerian. Order from P.O. Box 2228, Clarksburg, W.Va., 26301. **THE CASSIOPEIA AFFAIR** by Chloe Zerwick & Harrison Brown. About man's first contact with extraterrestrial beings & how it will come not from spaceships, but from a series of radio blips. (Doubleday) \$4.50. **FLYING SAUCERS & THE THREE MEN** by A. Bender is now on the book stands with a forward by Gray Barker. Paperback Library, #53 - 686. 60¢. Gordon Lore has written **MYSTERIES OF THE SKY**. Kurt Glemser's **THE MEN IN BLACK** is now ready from him for \$2.00. 50 pages, 8½" x 11" size. A 2nd printing is in store, as it is selling fast. Obtainable from the author at 489 Krug Street, Kitchener, Ontario, Canada. **SAUCER ENIGMA** by Bob Miller & Rick Hilberg is \$1.00 Write: P.O. Box 2708 in Cleveland, Ohio 44111, U.S.A.

Flying saucer books continue to saturate the market so we will list as many as we can briefly. Otto O. Binder is planning a book based on his successful **OUR SPACE AGE** series. **UFOs IDENTIFIED** by Phillip J. Klass. \$6.95 According to Klass, all

"U.F.O.S. - 20th CENTURY'S GREATEST MYSTERY"

ANYONE WHO PLANS to mess around with flying saucers should read Mike Campione's book.

Mike is the leading UFOlogist in Cinnaminson, N. J. A UFOlogist is a student of UFOs, which means Unidentified Flying Objects, which means Flying Saucers.

Mike is local president of the Amalgamated Flying Saucer Clubs of America. He spends a lot of time lecturing on the subject. I don't know where he gets all his information, but he knows things about UFOs I never read anywhere else.

His lectures to audiences of Elementary through College levels, members of Church, Fraternal, Service, P.T.A. and Business groups, acclaim him with standing ovations. His "down-to-earth," enlightening, entertaining and provocative presentation is considered TOPS. His penetrating research reveals hitherto hidden factors, astounding implications, to laymen and scientists.

Over 45 drawings & photos, 135 pages UNCENSORED TRUTHS. Factual recognition factors of friendly and unfriendly shapes-SAFETY, DEFENSE TIPS on Land, Air, Sea. \$3.50 ppd. U.S., M. J. Campione, 2202 New Albany, Cinnaminson, N.J.

UFO NEWS YOU CAN USE

AUTO BUMPER STICKERS that say: "Flying Saucers Are Real - The Air Force Doesn't Exist" are being sold by AFSCA, 2004 N.Hoover St., Los Angeles Calif., Price: 10¢ each.

3 UFO PHOTOGRAPHS taken in Argentina, size 4" x 6" only \$1.00 Write: Guillermo Aldunati, Moreno 2763, Rosario, Argentina, South America.

FOR TRADE: U.S. flying saucer newspaper clippings 1947-1967. **WANTED:** stamps or coins. Send "stamped" envelope. Mr. Albert Onori, 70 Melwex St., Belleville, New Jersey 07109.

FLYING SAUCER PHOTOS FOR SALE at reasonable prices from Mike Mann, 140 E. 2nd St., Brooklyn, N.Y. 11218. Ask for **FREE** photo list.

STRANGE FATE, a syndicated series on unusual phenomena and flying saucers is now being readied by Cummings Productions, 1290 Belmont Ave., Niagara Falls, Ontario, Canada. If you would like your local radio station to run the program, write to Robert Cummings at the above address.

UFO INFO, written by Gene Duplantier and produced by Brian Skinner of CHUM Radio, 1331 Yonge St., Toronto 7, Ont. is being planned for syndication to radio stations across the nation. If you are interested in having your station carry the series, write CHUM or have your local radio station do it.

16-PAGE LECTURE by MEL NOEL is being sold by The Vancouver Flying Saucer organization for 25¢. P.O. Box 720, Station A, Vancouver 1, B.C. Canada.

FLYING SAUCER ORNAMENT to be worn as a pendant or hung on the wall is ready for mailing from Miss Rey D'Aquila, Beeklaan 431, Den Hague, Holland. They are copper enamelled, 2½mm thick, 5cm wide for \$1.70 and a larger one is 7cm wide for \$2.00. Postage included. Colors: transparent grey, amethyst, royal blue or light red. The outer circle is sky blue with a star decoration.

THE UFO STORY is a dramatic 28-minute sound film containing actual sequences of flying objects. Super-8 optical sound medium. Details from MODFILM, Box 2228, Clarksburg, W.Va. 26301.

A TOY FLYING SAUCER, about 16" in diameter that actually flies by means of a gasoline engine is made by the Olsen Co., Box 4276, San Diego, Calif.

THE INVADERS UFO has been produced by the AURORA plastic kit company. Your local hobby shop should have this one. Price is about \$1.50

HAL WILCOX will lecture to your group on his space contacts. Write: Galaxy Press, P.O. Box 702, Azusa, Calif. 91702.

WOODROW DERENBERGER will lecture to your group on his experiences with space people, including the one called Indrid Cold. Write c/o Gordon Shandley, 130 Brookline Blvd., Havertown, Pa.

FREE FLYING SAUCER INFORMATION from Laura Mundo, 27328 Cranford Court, Dearborn Heights, Mich. 48127.

EARL J. NEFF will show his 2-hour slide program with electronic music accompaniment to your group for a reasonable fee. Write to him at 11309 W. Pleasant Rd., Cleveland, Ohio 44130.

Flying Saucers are not new, Prague historians reported appearances of two "fiery flying dragons" over the city in 1130 and 1142, a Czechoslovak magazine says. In the 18th & 19th centuries, flying objects were so frequent in Bohemia that children learned about them in school, says the magazine Verceni Praha. Credit: Chicago Daily News, Aug. 1, 1967, via Wm. Gryzik, Chicago, Ill.

the moon and build various structures".....Argonne National Labs have developed supermagnets that can generate tremendous fields, but requires no electrical power once they have been energized and may influence scientific fields ranging from nuclear physics to power production..... Langley Research Center biologists say the viruses, bacteria & other micro organisms astronauts carry in their bodies could become tiny space-age monsters as a result of long voyages. Spaceflight conditions apparently can cause changes in the microscopic world of living creatures..... President Johnson told space chief James Webb the U.S. effort to reach the moon by 1970 "had better be on schedule".....By 1970 the Soviets will have the largest telescope in the world - a 236-inch reflector which is now being built in the Caucasus.....Development of a new laser beam device that generates a light 150,000,000 times brighter than the sun, was announced by the developer of the original laser, Dr. Theodore H. Maiman. A metal disc that reproduces motion pictures through a TV set is in advanced stages of development at CBS laboratories. It is an advance over magnetic tape for playing back pictures in the home.....Dr. R.R. Chaffee of the University of Missouri's Space & Science Research Center reports that experiments with hibernating hamsters raise the hope for eventually inducing temporary hibernating powers in man for long space voyages.

SPACE HUMOR

Oh, see the flashing UFO
Is it friend or foe?
'tis a lot of gas -- don't you
know,
The administration says it's so.
(Howard C. Goldman, Chicago)

MILKY WAY DOUSES FIRE - In Ludlow, Pa., the engine of Leroy Harlan's milk truck caught on fire. Even though firemen responded quickly, Harlan put the fire out with 6 quarts of milk.

SWAMP GAS IS DRIVEN BY "MARSH-INS."

Dan: What kind of eggs are they, chicken or duck?
Fran: I'm not sure what they are...just UFOs...unidentified frying objects.

Flying saucers are real - it's the Air Force that's not!
